Panel Spacer

Curved Panel

Key Features

1. Comprehensive Accessory Range

- Includes a specially designed 250mm corner piece for seamless construction in complex designs.

2. Cost Efficiency

- Save up to 30% on costs compared to traditional formwork systems without compromising on quality.

3. Clearform Translucent Face

- Innovative translucent face allows for real-time inspection of reinforcement placement and concrete pours, reducing errors and ensuring structural integrity.

4. Enhanced Versatility

- Compatible with the Clearform panel spacer to easily form columns, making it a multi-purpose solution for various structural needs.

Technical Features

1. Innovative Webbing Design

- Engineered with reinforcement slots for secure and precise steel placement.

2. Reinforcement Compatibility

- Accommodates reinforcement bars (U-bars) up to 175mm, offering flexibility for diverse project requirements.

3. Robust and Reliable

- Built to withstand demanding construction environments while maintaining ease of use and reusability.

Why Choose Clearform Wall Systems?

- **Improved Visibility:** The translucent face ensures high accuracy in every stage of construction.
- **Reduced Costs:** Achieve significant savings without sacrificing performance or durability.
- **Simplified Construction:** A full range of accessories and compatibility with spacers make complex projects easier to execute.

Experience the future of construction with Clearform Wall Systems 250mm Profile —your partner in building smarter, faster, and more cost-effectively.
