

PROMOTING COMPLIANCE AND SUSTAINABILITY WITH AUSTRALIA'S FIRST TRANSPARENT PVC STAY IN PLACE FORMWORK SYSTEM

To accomplish the common goal of life cycle costs and preserving a state of good repair, builders, engineers and certifiers must be sure the right work is done at the right time. Know with confidence the condition of your infrastructure has been built in line with current standards and best sustainable building practices.

- ALLOW FOR UNOBSTRUCTED PREPOUR ENGINEER REINFORCING INSPECTIONS
- MONITOR CONCRETE POURS ENSURING NO VOIDS IN YOUR WALLS
- CHOICE OF TRANSLUCENT FACES TO EITHER ONE OR BOTH SIDES
- MANUFACTURED WITH UP TO 43% RECYCLED PVC
